## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Woo (U.S. Patent No. 6,012,920). Woo discloses in Figure 1 an articulating connector (8) for a mandibular repositioning appliance (6) comprises an upper and lower housings (10a, 10b) each pivotally mounted on a pin (20) and rotatable about the axis of the pin (20), to selectively permit movement of the mandible in the lateral direction. The pins (20) are hingedly connected respectively to threaded adjusting screws (40, 50) to selectively permit movement of the mandible in the vertical direction. Figure 1 further discloses the appliance (6) comprising a maxillary tray (2) and a mandibular tray (4), the connector (8) interconnecting the trays (2,3), and the connector (8) protruding forwardly from the trays (2, 3).

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
